

Firefly, Firefly

Firefly, firefly, glowing in the night,
Firefly, firefly, what a pretty sight!
No battery or wire, yet you set the sky afire,
Sparkling with your magic light.

Firefly, firefly, we would like to know
Firefly, firefly, how you keep aglow!
Oh, you're the main attraction with your chemical reaction.
Now it's time to start the show.

Let your night light shine all around the world.
Brighten up the sky for ev'ry boy and girl.
Let your night light shine with a magic glow.
Fly on and let it glimmer ev'rywhere you go.

Let your night light shine all around the world.
Brighten up the sky for ev'ry boy and girl.
Let your night light shine with a magic glow.
Fly on and let it glimmer with a sparkle never dimmer;
Keep that bright and happy shimmer ev'rywhere you go.
